

What is Business Incubation?

Business Incubation is designed for entrepreneurs or individuals looking to start a business, relocate their business, or who have outgrown their home-based office.

Business Incubation involves a mix of office accommodation, advice, services and support to help a business develop and grow.

For many new enterprises, support from a business incubator can mean the difference between success and failure.

hranywhere are a team of people who offer a wide range of office accommodation and business services to meet and support your business needs.

hranywhere business incubation offer

Office Accommodation

hranywhere's options for office accommodation are the ideal solution to your businesses needs.

We cater for various business structures from sole traders, start up businesses, and entrepreneurs.

You can select from one of the following three options:

1. I'm In and Out (Hot Desk)!

This option suits the busy professional who is on the road or with clients who needs that place where they can come and 'log on', sit down read their mail and do some 'desk' work when the need arises.

2. I want a place I can call home!

This option is tailored for the business professional that needs a more permanent space to call home. We can provide you with a dedicated or part time desk where you can securely leave you files for when you are next in. This is your place.

3. I want a place WE can call home!

This option is tailored for the business professional who needs multiple spaces for their business to call home.
